Old Series: Vol. 8 No. 34.

Important Work is Being Done by Kentucky Folk-Lore Society.

Attention of the readers of this paper is called to the efforts of the recently formed Kentucky Folk-Lore Society. This Society is trying to collect and preserve all kinds of folk-lore, of which there is much in Kentucky. The Society desires the assistance of all good Kentuckians, so that the unprinted songs, legends, customs etc., of our State, some of which are passing away with this generation, may be recorded.

Many readers of this article can help in the work. The school teachers of the county are especially in a position to get unprinted songs that children and others sing. The following are the kinds of folk-lore that the Society is collecting:

SONGS—Many people sing songs learned from their parents or neighbors and probably never printed. All kinds are wanted by the Society—religious songs, love songs, Civil War songs, songs of robberies or fights, etc. Songs of both negroes and whites are desired. Mountain songs and ballads are especially in demand.

SIGNS AND SUPERSTITIONS—Stories of "hunts," ghosts, hoodoo cures, and the like are desired. The negroes may have many of these.

LEGENDS—Unprinted stories of the Civil War times, anecdotes of the period before the war, duels, feuds and traditions handed down from Indian days, are worth saving.

DIALECT—Unusual words, words used in unusual senses in a given locality, and survivals (such as are common in the Kentucky mountains) of old words or meanings are desired. The origin of our geographical names also needs to be worked out.

MISCELLANEOUS—Besides the above, record is wanted of peculiarly local games, plays, and dances, and local jokes, riddles, and proverbs.

Please note these suggestions: (1) record the material just as you found it, mistakes and all; (2) indicate where, when and from whom you got it; (3) indicate whether you got it from recitation, from an old manuscript, from singing, or from your own memory; (4) indicate when, where, or from whom your informant got it.

Dr. D. L. Thomas, Danville, Ky., the Secretary of the Society, will be glad to answer any questions. Any material, however slight, that is sent to him will be gladly welcomed by the Society.

DECORATION DAY

John G. Eve Post, No. 221, Barbourville, Kentucky, will have their regular decoration, of the graves of the old Soldiers on Friday the 30th day of May. Owing to so many of our old Comrades are not able to march up to the Cemetery to strew the flowers on the graves. We will all get in line and march with the little school girls and boys out to the Union College campus, where we will have some fine speeches, by the Sons of Veterans, and others, as follows: J. M. Robison, son of veteran, J. T. Stamper, R. B. Golden, H. L. Taylor, John G. Matthews, E. B. Hemphill, Jas D. Black, S. T. Steel, and Walter N. Jarvis.

There will be a Committee of Ladies, and a few old Soldiers who will go to the Cemetery and strew the flowers on the graves of our fallen comrades.

We invite all our friends, both the Blue and the Gray, to go with us in the march. We expect to have good music on that day. All come.

Comrades and Friends, Besides the decoration, we will have our Memorial Sermon preached by Rev. E. R. Overly at the First Methodist Episcopal Church, on Sunday, the first day of June. Everybody are cordially invited to come. We love, in our old days, to see our friends mix and mingle with us the few days we linger here. Let all the other churches assemble with us on that day. A few more days and we will be over on the other shore.

Yours,
G. F. Bretz, Com.

BULLETIN

1—The Act of 1912 requires all candidates for the office of County Superintendent, except those who are now in office, to hold a State Certificate issued by the State Board of Examiners, which does not expire during the anticipated term of office.

2—The applicant may qualify by taking a special examination to be held in the Department of Education, Frankfort, May 30 and 31, and June 27 and 28. This examination is in all respects equivalent to the examination for regular State Certificate.

3—The applicant may qualify by taking the regular State Examination, June 20 and 21, either in the county in which the applicant resides or in Frankfort, before the State Board of Examiners.

4—Applicants may qualify after nominations are made in the August Primary. However there is only one chance after the Primary, and that is in the regular State Examination in August; and the candidate can not take this examination, except in his home county, where he expects to run for office, or in Frankfort in the Department of Education.

5—Incumbents in office, under the law, are qualified by virtue of their past tenure of office, to run for reelection without further examination.

6—The 1912 law prescribes that all candidates who are not incumbents in office, must either have a certificate as herein described, or take this special examination, which is in all respects, the equivalent of a State Certificate. Therefore, all such candidates must have taught two years, the time required by law to secure a State Certificate. (Ky. Stat., Carroll, Sec. 4503; Ky. School Law, Hamlet, 1912, Sec. 79.)

R. N. Baldwin's Announcement For Republican Nomination For Representative of 69th District.

Who I Am.

TO THE VOTERS OF THE SIXTY-NINTH LEGISLATIVE DISTRICT:—

My name is Robert Newton Baldwin, my father's name is T. J. Baldwin, sometimes called Banjo Picking Tom Baldwin. His father's name was R. N. Baldwin. My grandfather taught school for thirty years, most of which time was spent in Knox and Whitley counties. He was known by all the older citizens of both counties. He was akin to all the Noes, Jarvis's and Stansberry's in Knox county, and the Denham's in Whitley county. My mother's name was Mary Cox, daughter of Amos Cox, of Knox county. Her mother's name was Malinda Owens, and her maternal grandmother was Rachel Johnson. Her paternal grandmother was Nancy Lee.

I am akin to the Walkers, Hammonds, Hembrees, Baines, Dayises, Lees, Bayises, Owens, Cox's Stansberrys, Jarvises and Marsee's in Knox county, and the Lees, Roses, Caddells, Davises, Coxes, Goinses, Johnsons, Denhams, and Legeres and part of the Bennetts, Joneses and Lawsons, in Whitley.

I have taught school for eleven years. I have read law for more than two years. I have been a practical printer and newspaper man for more than five years. I have been very poor all my life. I have therefore been a hard worker wherever my lot has been cast. I have been raised as a farmer's boy. I have worked in the log woods and at various saw mills in the two counties until I know the conditions of the laboring man by actual experience.

When I was eighteen years of age I entered Williamsburg Academy without a penny of money—a stranger to everybody in the town. I worked my way, washing dishes, building fires, carrying coal and water, sweeping floors and other odd jobs, for four years. During the time I was in school I managed to live and work and study, while sleeping but four hours each night. I graduated from the Normal Department of Williamsburg Academy in May, 1905. I am glad to know that all the student body of the Academy during these four years was a unit in being my friends, and most of them are my friends today. Since 1905, I have been in school part of the time at Williamsburg Institute.

WHAT I AM

Now, I am a candidate for the Republican nomination for Representative from the Sixty-ninth Kentucky Representative District, subject to the action of the Republican primary election on the 2nd day of August next.

I stand upon the right side of every moral and economic question. I believe in better schools, lower taxes and the complete and thorough and effective prohibition of the liquor traffic. I believe in State aid for good roads. I believe in cultivating a better citizenship founded upon a true, moral basis and cultivated along the most utilitarian plans. I believe in boys and girls, the men and women of a great tomorrow; that whatsoever the boy soweth the man shall reap—that no nation can rise above its fountain head—no State can be better than its schools make it. I believe in the curse of ignorance, and in the efficacy of the schools. I believe I can be of benefit to the entire State by giving my services to the State next winter in the effort to make new laws suitable to present day conditions, and by helping to repeal or throw off laws which were made long ago and are now outgrown and out-of-date.

What I Want You to Do.

These are my reasons for wanting to go to represent you in the next session of the General Assembly. Now I cannot see every voter in both counties. I intend to travel over every road, up every creek and across every hill and mountain in the effort to see you. But when I come to see you some of you may not be at home. You may be in Barbourville or Williamsburg, away some place out of the county. That is the reason I am telling you in this manner, who I am, what I am, what I want to do and what I want you to do.

I am twenty-nine years of age, have worked hard all my life, now have a fair education, am in sympathy with the poor man, the laboring man and in favor of all moral reforms and progress that can be made in this State. If you are in sympathy with a poor man; if you believe that I am true and will be true to the interests of the laboring man; if you believe in better schools, longer terms and better salaries for teachers, and if you believe I have the courage of my conviction; if you are opposed to the traffic in alcoholic liquors, and if you believe I am in earnest in my advocacy of State-wide prohibition; if you believe in better laws and lower taxes and if you believe I will do my level best to bring all these things about, then I want you to vote for me.

Not only do I want you to vote for me yourself, I want you to tell all your friends and neighbors about me and urge them to vote for me. Write to your friends and relatives who live in the district but at a distance from you. Tell everybody you can to vote for R. N. Baldwin, the common people's friend. Many will do so through your advice and influence. I did not expect to win this race by myself when I concluded to run. I expected every school teacher who believes in longer terms and BETTER SALARIES, every preacher who believes in temperance and morality, every farmer who believes in lower taxes, every miner who believes in a fuller and more conscientious protection for himself and family to get behind my candidacy and make my fight their fight.

I have been a candidate for nearly three months and I am pleased to say that I have no cause to be disappointed yet. The people whom I wanted as classes to favor me are doing so to suit me exactly. I am more than pleased. I am DELIGHTED. Do all you can for me and be assured that all you may do or say in my favor will be duly appreciated and long and gratefully remembered. If I win the nomination for this office and if I am elected

GARD

TO THE CITIZENS AND VOTERS OF KNOX COUNTY:—

I hereby announce myself as candidate for Assessor of Knox County, subject to the action of the Republican Party at the General Primary in August.

I have been a citizen of this county practically all my life, having lived here ever since I was fifteen years old. I am living now where I was raised off Goose Creek in the Girdler precinct, seven miles east of Barbourville.

During all my life I have tried to treat every man square and I have always voted as I saw to the best interest of my country and my people. If I am given your support and nominated and elected, I pledge myself to carry out these same ideas in giving to my county my best services and to try at all times to give my influence toward the betterment of my people.

I have never been elected to an office in this county but have held the office of Chairman of School Division No. 4, and my life and past record is open to every man.

I will greatly appreciate anything done for me in this my first race and will be glad to return the favor if later it presents itself.

Very sincerely yours,
W. N. EPPERSON.

Painting Window Shades.
Window shades that have become cracked and broken can be renovated by laying them flat on the floor and painting them with ordinary oil paint bought at any hardware store in small cans. Paint one side, let dry thoroughly before touching the other side. This treatment preserves the shades and makes them last years.

NOTICE.

On the 6th day of June, 1913, contract will be let at Barbourville, Ky., for the construction of 2 steel bridges in Knox county; one across Big Richland Creek, at Baileys Switch and which will be a 50-foot span, and one across Brush Creek, at Lay, Ky., which will be 45 foot span. I hereby reserve the right to reject any or all bids.

Government Homesteads

The United States Reclamation Service announces the availability for homestead entry some excellent irrigated farms in the well-known Shoshone irrigation project near the Yellowstone Park in Wyoming and in the Huntley and Belle Fourche projects in Montana and South Dakota. Water is now ready for delivery to these farms; and under the new three-year homestead law a liberal inducement is accorded settlers in that they are permitted five months' leave of absence in each year. The cost of the water right is repayable in ten annual installments without interest.

In all the foregoing districts there are already splendid transportation facilities, good roads, schools, stores, churches of practically all denominations and rural free delivery. For those with sufficient means to commence farming operations this offers an excellent opportunity to work out one's independence and to develop a paying farm. Mr. Albert V. Leonard, Settlement Agent of the Reclamation Service, Federal Bldg., Chicago, has available for distribution several descriptive pamphlets concerning these projects and will be glad to furnish them upon request.

SCALF NEWS

(By March Wind)

G. M. Hammons and wife, of Corbin, visited their parents here last week.

Born, to Squire and Mrs. Thos. Hubbard, a girl.

B. M. Jackson was in Barbourville last week on business.

T. J. Mills, of this place is sitting as a Federal grand jurymen at London.

M. H. Hubbard, of Duft, Tenn., has rented the property of Thos. G. Hammons, at Artemus, and has moved in.

Dr. F. R. Burton and Sam Jackson, of Flat Lick, were here one day last week.

Thos. G. Hammons, our popular candidate for County Judge, has been busy for the last two weeks in campaign, and says things are looking good to him. He will carry this end of the county almost to a sure.

James M. Carnes passed through here last week talking Sheriff to the boys.

N. W. C. Hammons was a guest of Thos. Hubbard and wife, last week.

Constable L. C. Taylor has been quite busy for the past week, serving papers for Squire Hubbard's court.

Gilbert Gray is very low of consumption.

Quite a lot of students from this place, have taken the teacher's examination at Barbourville, this week.

George Mar Hammons, son of Thos. G. Hammons, who is employed with the L. & N. R. R. at Corbin, was with his folks here this week, returning to his post Friday.

Comparative Digestibility of Food

Made with different Baking Powders

From a Series of Elaborate Chemical Tests:

An equal quantity of bread (biscuit) was made with each of three different kinds of baking powder—cream of tartar, phosphate, and alum—and submitted separately to the action of the digestive fluid, each for the same length of time.

The relative percentage of the food digested is shown as follows:

Bread made with
Royal Cream of Tartar Powder:

100 Per Cent. Digested

Bread made with
phosphate powder:

68% Per Cent. Digested

Bread made with
alum powder:

67% Per Cent. Digested

These tests, which are absolutely reliable and unprejudiced, make plain a fact of great importance to everyone: Food raised with Royal, a cream of tartar Baking Powder, is shown to be entirely digestible, while the alum and phosphate powders are found to largely retard the digestion of the food made from them.

Undigested food is not only wasted food, but it is the source of very many bodily ailments.

STATEMENT

It is being circulated that if elected as Jailor I could not qualify for the office, but this is not so, and I challenge anyone to prove to the contrary. If I am elected I will qualify, and I am soliciting your support, confident of winning.

Very truly,

JAMES DINSMORE.

Kidney Troubles Attack Barbourville Men and Women, Old and Young.

Kidney ills seize young and old. Often come with little warning. Children suffer in their early years. Can't control the kidney secretions. Girls are languid, nervous, suffer pains. Women worry, can't do daily work. Men have lame and aching backs. If you have any form of kidney ills you must reach the cause—the kidneys. Loam's Kidney Pills are for weak kidneys. The following testimony proves their worth:

Mrs. S. H. Cunningham, Second St., Corbin, Ky., says: "I think so well of Doan's Kidney Pills that I consider it my duty, as well as pleasure, to recommend them to my friends and acquaintances. Others of the family have used Doan's Kidney Pills and the results have been entirely satisfactory. We would not be without Doan's Kidney Pills in the house."

For sale by all dealers. Price 50cts. Foster-Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other.

"Pittsburgh Perfect" Fence

CONSIDER SIZE OF WIRE When Buying Fence
DON'T BE FOOLED by Weight per Rod or Roll

There's no "bunkum" about weight per roll when you buy "Pittsburgh Perfect" because it is constructed without using extra wire to make the fence-joints. The extra weight of the joints in all wrapped, champed, twisted or tied fences supplies no extra strength, but actually weakens these fences by persistently dragging down the

panels, wearing them out before their time and making you buy more before you should. "Pittsburgh Perfect," the only fence with Electrically Welded Joints, is a one-piece fabric of unequalled strength, durability and economy, because we eliminate the expense of extra wire, and put this money into extra quality.

Made in Different Styles for FIELD, FARM, RANCH, LAWN, CHICKEN, POULTRY and RABBIT YARD and GARDEN

Every Rod Guaranteed

Ask your dealer for "Pittsburgh Perfect" and insist on his furnishing it. Do not allow him to persuade you that some other fence is just as good. If he doesn't sell it, write us direct.

"Pittsburgh Perfect" Brands of Barbed Wire, Brack, Annealed & Galvanized Wire, Twisted Cable Wire, Hard Spring Cold Wire, Fence Staples, Folding Netting Staples, Regular Wire Nails, Galvanized Wire Nails, Large Head Fence Nails, Square Head Fence Nails, "Pittsburgh Perfect" Fencing. Comodore Bengie was visiting friends here this week.

J. M. Robison and Robt. W. Cole were in Corbin on business Thursday.

Mrs. W. D. Faulkner, of Pineville, was visiting relatives in this city Thursday.

Two new automobiles arrived in this city this week, the properties of Dr. Leslie Logan W. H. McDonald.

W. S. Edwards, wife and baby, left here Thursday morning for College Hill, where they will spend several days visiting his parents.

Judge and Mrs. J. M. Robison, who were in Dayton, Ohio, for several days during the past two weeks returned home last Friday.

The Union College ball team went to Williamsburg Wednesday and were defeated by the team in that city by a score of 11 to 5.

Chester Riley, who has been at Jenkins for some time past as book keeper for the Consolidated Coal Co., has returned home for a short visit to his parents.

Misses Maymie and Lella Johnson, of Pineville, were the guests of Mr. and Mrs. W. R. Barner this week attending the commencement exercises at Union College.

R. N. Baldwin, of Williamsburg, candidate for Representative in the Lower House of the General Assembly of Kentucky, was here this week fixing fences in his race.

Mr. and Mrs. Chas. G. Cole returned the first of the week from their honeymoon, and are at present making their home in the Gibson Building, with "Mother" Cole.

Claud Cole, who left last week for Louisville where he had a secured position with the Crescent News Co., returned home Saturday, having decided that "there is no place like home."

Messrs P. D. Black, W. W. Sawyers, J. Edward Faulkner, T. J. Gilbert and Josh Williams attended the ball game at Middlesboro, Sunday and visited Harrogate and other points in an automobile over the pike.

Several people from this city, attended the baseball game at Middlesboro last Sunday, but were disappointed in not seeing Sawyers in action, from the fact that he had worked steadily during the past two weeks and was given a much needed rest on that day.

Union College was victorious in the two games last Friday and Saturday on the home grounds against the team representing Harlan. They outclassed the visitors at all stages of the game and won the first game by a score of 3 to 2, and the last one by the one-sided score of 13 to 1. Decker pitched the first game and Edwards the latter.

B. B. I. Closed for The Year

Last Friday witnessed the closing of the school year at Barbourville Baptist Institute which has been the most successful year since its establishment.

The attendance has been exceptionally good and all the patrons of the school are gratified with the progress made by their children. The school was practically self-supporting, running only a small amount short in the finances for this year, and preparations are already being made for the next school year which they hope to even surpass their good mark of this year.

Two graduates a music were turned out by Miss Huddleston this

year, Misses Lou Faulkner and Mary Stansbury, and their recital last Friday evening was attended by a large crowd and was greatly enjoyed despite the oppressive weather on the evening of the recital.

HUGHES-TROTTER.

On Wednesday morning in the reception room at Brown Hall, occurred the marriage of Miss Nannie C. Trotter and Mr. Jackson F. Hughes, Rev. A. C. Hutson officiating. This was a very quiet affair with only a few friends and relatives present.

The attendants were Misses Mallie Baker, Laura Jane Green, Mr. L. L. Parks and Rev. J. B. Fallant. Miss Beulah Huddleston played Mendelssohn's wedding march.

The bride's dress was of white messaline draped with shadow lace and she wore the tulle veil, white gloves and slippers and carried a shower bouquet of lilies of the valley. Miss Trotter is a graduate of Carson and Newman College, of the class of 1910, and has been connected with the Baptist Institute, as teacher for the past two years. She has won many friends during her stay here who are glad to know that she is to make this her home.

Mr. Hughes is wellknown here as one of our promising and progressive business men.

The couple left on Wednesday morning's train for points in Tennessee. They will be at home on High Street, after July the first.

MANY NOMINATIONS

A Number of Young Ladies Suggested as Worthy to Win the \$400 Piano

Get an Early Start; \$10 in Gold to be Given The Contestant With the Largest Number of Votes at the First Count.

The big prize voting contest announcement in these columns last week is creating more interest than we imagined it would at the beginning. Nominations of contestants are being sent to this office and soon there will be many who would be willing recipients of a fine \$400 Obermeyer & Sons piano or other valuable prizes enumerated in list.

All of these handsome prizes are enumerated in the announcement on another page, and will be given to some of the ladies of this and adjacent territory.

The question is: "How can I do it?" All that is necessary is to get your friends and relatives to trade with the merchants who are donating prizes in this popular voting contest. For each \$1.00 spent with the merchants you will receive 25 votes, which can be voted for any of the contestants. Also to get your friends to subscribe for The Mountain Advocate. For each one year subscription you will receive 600 votes, for each one year renewal 500 and for each one year back subscription 400 votes. Of course it will be understood that under no circumstances are coupons issued by the merchants except upon cash purchases.

Voting can commence at any time in a ballot box which is placed in The Mountain Advocate office and the keys of the box will be given to the awarding committee whose names will be announced in another issue of this paper.

Use the free vote coupon in this issue. If you know of any lady who has not been nominated and whom you thing would make a good race use the nominating blank below and send her name to The Mountain Advocate office, or bring it in person and her name will be entered. It matters not if she is married or single.

This is a popular lady voting contest; not necessarily a young lady contest.

Read the rules elsewhere in this issue or we will mail them upon request. Inspect the offerings of the merchants and learn how you may secure votes for yourself or friend. Be sure and ask these merchants for coupons.

First count in contest will be made on June 13th, at which time \$10 in gold will be awarded to the contestant having the largest number of votes at that time.

Remember that many of the merchants of Barbourville are interested in this contest and give a 25 vote coupons with each \$1.00 cash purchase.

Those who do not understand the rules and regulations of this contest can call at this office or write us and we will be pleased to go over the proposition with them.

Get busy and vote for your choice. This contest will be conducted squarely and no partiality will be shown to any one.

The following young ladies have been nominated in the contest

Barbourville—Misses Julia Smith, Mable Matthews, Hilda Fisher, Laura Hayes, Margaret Helton, Bertha Lane, Clara Lambdin, Mrs. Betty Golden, Misses Jesse Ballard, Dortha Miller, Gladys Steele, Kitty Carues, Bessie Sawyers, Nila Parker, Francis Farmer, Louise Hyden, Lottie Lockhart, Elsie Wilson, Myrtle Mitchell, Jesse Davis, Alice Helton, Ticy Miles, Evelyn Black, Jewel Tye, Beatrice Croley, Evelyn McClung, Mary Herry, Lou Faulkner, Beulah May, Mary Saylor, Bonnie Tye, Florence B. "Yes Sir! Studebaker wagons are made to back up a reputation."

"I know, because wagons of every make come into my shop for repairs, and I have a chance to see how few are Studebakers."

That's the opinion of thousands of blacksmiths who know the quality of Studebaker wagons.

The owners never regretted that they bought Studebakers.

Tested materials, accurate workmanship insure a wagon unequalled for durability, and this careful selection of wood, iron, steel, paint and varnish has been a fixed rule with the Studebaker Company for sixty years. That is why a Studebaker wagon runs easiest and lasts longest. It is built on honor.

Whether you live in town or country, there is a Studebaker vehicle to fill your requirements for business or pleasure—and harness of every description made as carefully as are Studebaker vehicles.

WONDERS OF THE WORLD

Will Be Shown at America's Great Celebration at San Francisco in 1915.

The Magnificence and Grandeur of the Panama-Pacific International Exposition Cannot Be Adequately Described—A Gathering of the Nations of the World.

The splendors of the world will be shown at America's Panama celebration at San Francisco in 1915. Never will so many nations have participated in an international event. Of the nations that take part, and this includes all the great powers, it is probable that each one will be more elaborately represented than at any exposition ever held outside of its own boundaries. Twenty-eight foreign countries have already responded to President Taft's invitation. More than eight hundred leading exhibitors of the world have applied for exhibit space and a number of the exhibits will range in value from \$200,000 to \$300,000; more than two thousand applications for concessions have been received. The responses show the spirit of appreciation with which America's sister nations regard the work at Panama.

Display by Foreign Powers.

The foreign powers will display all phases of their progress at home and in their colonies. Mr. Harcourt, colonial secretary of Great Britain, has addressed the governors of the self-governing dominions, crown colonies and protectorates requesting them to consider the question of participation with the remark that the British display should be worthy of the British empire. Japan will expend \$1,000,000 upon its pavilion which, upon the conclusion of the exposition, will remain as the gift of Japan to America. The pavilion and grounds, occupying five acres, will be located upon the United States Presidio military reservation immediately adjoining the exposition site. Marquis de la Vega Inclan of Spain, who visited San Francisco, will arrange for a wonderful art exhibit to include the original paintings of the great Spanish masters and many historical trophies, tapestries, and rare pieces of sculpture. Holland will be represented upon a scale never equaled outside the Netherlands. France cabled San Francisco requesting twelve acres as the location of a superb exhibit palace to be built by France. China, newest of the world republics, is planning to show both the China of the past and that of the future. China and Japan, and indeed all far eastern lands within the sweep of the Pacific, are planning to take part in a wonderful series of Oriental parades and pageants, during a ten days' fiesta in the fall of 1915. There will be assembled in these parades perhaps the greatest gathering of strange tribes and peoples of Oriental lands ever gathered in the Occident.

The World's Battleships.

When the exposition opens—February 20, 1915—the nations of the world will, in actuality, officially come to San Francisco, for the battleships of the world will be assembled off Harbor View, the exposition site, at that time. That a battleship is virtually the territory of the country it represents is a fact widely recognized in the procedure of international law, and so the nations of the world will, as it were, gather at the western gate of America. More than two hundred foreign battleships will, it is known from unofficial advices, participate in a series of spectacular maneuvers in San Francisco harbor in 1915.

Construction upon the exposition has long since begun. The service building, which will be the exposition headquarters, is completed. Machinery hall, the largest of the exhibit palaces, will be the first of the great buildings to be completed. This structure will be 967 feet long and 370 feet in width; three great naves 122 feet high will run throughout its length from north to south. Contracts upon all the main exhibit palaces, of which there are fourteen, are being let at regular intervals and the highest point of construction will be reached next fall. All the main exhibit palaces will be completed by June 25, 1914, more than nine months before the exposition opens. All contracts are being let upon that basis. The early completion of the buildings will

permit the setting out and planting in the grounds and courts of several hundred thousands of rare trees, plants and shrubs now being grown in nurseries.

Early next fall the sightseer in San Francisco will be enabled to look from the rim of the encircling hills at Harbor View down upon the exposition city and see the buildings in progress of construction. To the west he may look out to the Golden Gate and to the islands in the Pacific beyond. To the north he will see the stream of traffic that passes before the exposition site.

Easy of Access.

One may easily reach the exposition in twenty minutes from the Ferry building. The site of the exposition, at Harbor View, lies within the city limits as a crescent upon the shores of San Francisco bay, just inside the Golden Gate. No more picturesque location, nor one more appropriate to the celebration of a great maritime event, could be imagined. On the south, east and west it is encircled by towering hills with varying contours rising successively from 250 to 900 feet above sea level, like the enfolding walls of a vast amphitheater. Upon the north the site opens out upon the harbor of San Francisco. The panorama at Harbor View recalls the famous Riviera upon the shores of the Mediterranean. In the harbor before the site lies Alcatraz island, the location of a military prison whose white walls are reflected in the waters of the bay. Beyond are the hills of Marin county rising up into the hundreds and in some instances into the thousands of feet, with Mount Tamalpais, loftiest of all, its summit often shrouded with a turban of fog upon which the sun shines as upon a vast bank of snow, as a background for the setting.

The central portion of the site lies slightly above the sea and is encircled on three sides by gently sloping ground; within a short distance from the boundaries of the site these slopes change to steep hillsides and thus the center becomes the floor of a huge amphitheater from whose sides the exposition will be seen stretched out below. To the east and south the residence section encircles the exposition grounds, and to the west and southwest the site is embraced by the wooded slopes of the Presidio military reservation, dark with cypress and eucalyptus and interspersed with occasional vistas of green valleys.

All told the site comprises 625 acres; it is two and one-third miles in length with a maximum width of one-half mile. Its frontage upon the harbor will be approximately two miles and further from the bay it will extend another one-third mile, Fort Mason, a military post, occupying a corner upon the extreme east and along the bay.

Faces the Bay.

The exposition buildings built upon an east and west axis will face the bay upon the north; they will parallel the stream of the great incoming traffic of the world through the western gate of the United States. The harbor itself will be a part of the great theater upon which will be staged the world's jubilee and the Golden Gate will be the entrance to the theater.

A marvelous panorama will be afforded visitors on ships coming through the Golden Gate. As one looks from the harbor he will see three main groups of exposition buildings. There will be the great central group comprising the fourteen exposition palaces to be devoted to general exhibits; there will be the group upon the left hand or east and devoted to amusement concessions and covering sixty-five acres; this will be the "midway." The right hand group upon the Presidio military reservation and nearest the Golden Gate will be devoted to the pavilions of the states and foreign governments.

FESTIVAL HALL, where the conventions of the world will meet in 1915. The building will be 350,000 feet, with greatest breadth of 250 feet, the latter being taken up by the wings. A vast auditorium with a huge stage will be a feature of the structure.

The exposition site at Harbor View, with its towering amphitheaters of hills and vast distances, called for huge effects. The grouping of the fourteen great exhibit palaces will present this result. From afar the central group, facing for almost a mile upon San Francisco harbor, will seem as one colossal structure, a great Oriental city, with walls as high as the average six-story city block and with golden domes, towers and tower gateways rising to heights of 150, 270 and 400 feet. Nearer at hand it will be found that great inner courts lie between the buildings. Eight of the fourteen buildings in the main group will be joined in a rectangle to form almost a huge Oriental bazaar—a veritable walled city with its domes, towers, minarets and great interior courts.

In general the buildings of the central group are to be brought into contact with those next adjoining by arcades, courts and archways. Through this method of treatment four of the general exhibit palaces of the main group, fronting north upon San Francisco bay but set back at a distance from the water's edge, will present a single architectural design. Their walls and the adjoining arches will form the main northern facade of the exposition along the shores of the harbor, a marvelous frontage that will be first seen by visitors who reach the exposition city by water and enter San Francisco bay through the Golden Gate. By day the glittering pillars and minarets of this mile long facade will be seen as a dream city, while by night they will reflect the sheen of a million lights into the waters of the bay.

A Great Esplanade.

Before the facade and along the harbor's edge for more than a mile there will be built a great esplanade, a vast stretch of ground and terraces in which fountains will play and groups of statuary be set at intervals. Brilliant flowers and hardy flowering

the various tones. Mr. Guerin gives the following word picture of his color plan for the exposition:

"Imagine a gigantic Persian rug of soft, melting tones, with brilliant splashes here and there, spread down for a mile or more, and you may get some idea of what the Panama-Pacific exposition will look like if viewed from a distance, say from the Sausalito Heights, across the Golden Gate. For San Francisco's is to be unique among the expositions of the world in that it will be a 'City of Color.' Not that color is the chiefest value of the exposition, for its architectural features are equally remarkable. This color plan, that of making the group of buildings a veritable blaze of glory and at the same time avoiding the garish or barbaric, is the great new salient feature of the exposition."

The Court of the Sun and Stars will be 750 feet in width from east to west and 900 feet along its main axis. At the south end of the court will arise the huge tower of the Administration building, 400 feet in height, and dominating the architecture of the exposition. The upper part of the tower will take the form of terraces leading up to a group of figures surrounding a globe typifying the world; the tower will be lined with jewels which will glitter like diamonds when searchlights are turned upon them. At the base of the tower, which will occupy an acre in extent, will be a huge arcade 125 feet high, beneath which the visitor may enter into the Court of Sun and Stars from the main exposition entrance.

In the vaulted archways of the tower will be grouped a series of mural paintings designed by Jules Guerin and expressing the keynote of the exposition color scheme. But perhaps the most impressive feature of the Court of Sun and Stars will be found in a classic colonnade extending entirely around the court and

Copyright, 1912, by Panama-Pacific International Exposition.

A Necho tower in the Festive or East Court. At night the East Court, with its pavements of gold, its great banks of flowers, and its lofty palms, will be flooded with light. Musical masterpieces of the world will be rendered by the chimes in the towers. Great saengerfests and choral festivals will assemble upon the floors of the court.

trees and shrubs will lend warmth and color to the esplanade.

Three great courts will divide the main group of exposition buildings from north to south. Their theme will suggest the meeting of the east and west at Panama. One of the huge courts, that on the east, will suggest the Orient, rich in Oriental splendors; another on the west, will suggest the Occident, its theme exemplifying the wealth which nature has conferred upon the Saxon who has ever pushed to the west. Between these two courts will be set the greatest of all the courts, the superb Court of the Sun and Stars, its theme upon a magnified scale symbolizing the union of the east and west at Panama. This court will stand out among the most brilliant architectural expressions of America and Europe. It will be distinguished by the majestic scale of its architecture; by the splendor of its conception, and by its life, color, and spirit of joyousness. The color plan of this court, as indeed of all the great courts, is designed by Jules Guerin, undoubtedly the foremost decorative artist in America.

Beautiful Color Effects.

In the courts marvelous blendings of colors will be attained. Pompeian red, strong Italian blues, vermillion and orange will predominate. The roofs of the exhibit palaces will be covered with Spanish tile, a reddish pink. But from afar the sightseer will gain the effect of the blending of

screening the walls of the environing exposition palaces. The columns will be sixty feet in height; surmounting the colonnade will be a series of 110 figures symbolizing the stars. Each figure will support a huge artificial jewel four feet in diameter. At night these jewels will glitter with dazzling lights; by day their radiance will be obscured.

In the center of the court will be a great sunken garden with benches to seat about 7,000 people, surrounding the garden. In the garden will be groupings of classic statuary, dancing figures, fauns, satyrs and nymphs; flowers, trees and vines will contrast with the statuary and with the superb colonnades and the towering golden domes.

To the east as one passes from the Court of Sun and Stars to the great east or Festive Court will be a huge triumphal arch 90 feet in height and surmounted by a colossal grouping of statuary. Camels, elephants and Oriental warriors will crown the summit of the great arch. To the east on the approach of the Court of Four Seasons will be a triumphal arch of similar size surmounted by a group representing western civilization. A huge prairie schooner will comprise the central motif of the group.

As the visitor in 1915 passes beneath either of the huge triumphal arches to the east or Festive Court, or to the west court, the Court of Four Seasons, he will traverse great avenues between the exhibit palaces

LOOKING toward the hills of Maria county through the entrance of the great Court of Sun and Stars upon the harbor. In the center is seen a colossal column whose spiral represents man's climb towards fame. At the summit of the column the huge symbolical figure is designed to convey the spirit of success.

whose sides will be adorned with mural decorations and screened by classic colonnades. Huge pools of water will reflect the outlines of the lofty buildings. The walkways will be in pavements of gold. Great banks of flowers and potted palms will lend color and imagery to the vista.

If this visitor passes to the east or Festive Court he will behold a vision surpassing the richest dreams of the Orient. The Festive Court is dedicated to music, dancing and acting; it is designed for pageantry surpassing the luxurious Durbar and will constitute the proper setting for Oriental or modern drama upon a colossal scale. Here will assemble many of the fascinating pageants that will come from the concessions center to draw visitors to the amusement features of the exposition. The architecture of this great court will partake of the Oriental phase of the Spanish-Moorish architecture and yet it will have that refinement which is characteristic of the architecture of the Spanish Renaissance. The main tower of the court will contain a huge pipe organ with echo organs in the smaller towers. Electric acrobats will play upon fountains at night; reflected colored lights will cast a spell throughout the court. The walls of the cloister will be decorated with mural paintings; exotic flowers, trees and vines, orange trees in fruit and in blossom, will contrast with the statuary and the huge colonnades and staircases.

Court of Four Seasons.

From the Court of Sun and Stars the visitor in passing to the west will come to the superb Court of Four Seasons, of which Mr. Henry Bacon, creator of the Lincoln Memorial, is the architect. In its theme this court will typify the conquest of nature by mankind. In the center of the court will be a great grouping of statuary in which Ceres, Goddess of Agriculture, will be shown dispensing the bounties of nature. In each of the four corners of this court will be cut great niches into the encircling exhibit palaces. In each of the four niches will be four great mural paintings suggesting the seasons, spring, summer, autumn and winter; lofty colonnades will screen the niches.

The ornamentation upon the water front will be upon a colossal scale. The Court of the Four Seasons, opening upon the harbor, will be entered through a stupendous gateway, the Gate of Columbus. The visitor will pass through the gateway beneath a great tower to the esplanade upon San Francisco bay. Directly before the tower will be seen a colossal figure of Columbus, facing the water. Ornamenting the tower in recesses will be figures representing the great voyagers of the world.

Before the entrance to the grand Court of Sun and Stars upon the bay will be a colossal column whose spiral will depict man's climb towards success and at the summit of the column will be a figure representing achievement. On the left and before the Court of Four Seasons will be the gates of Balboa, before which will be a colossal statue of the discoverer of the Pacific ocean.

Each of the three main north and south courts will open out upon the esplanade on the shores of San Francisco bay upon the north and upon the great tropical garden upon the south. Vast beds of flowers in bloom will be set in the south garden; the plants will be replaced by others when their flowering season is passed.

The fourteen great buildings to be constructed by the exposition company, and to be devoted to general exhibits exemplifying the advance of the world in the arts, sciences and industries, will be the loftiest exhibition structures ever erected. In addition there will be the huge series of palaces and pavilions to be erected by the states and foreign nations.

To the east of the center group will be Machinery Hall, the largest single structure of the exposition. Just south of Machinery Hall is Automobile Hall. In the south garden at the east end and near the concessions center will be located Festival Hall, and near the west end the Palace of Horticulture, a huge structure of wood and glass. Flanking the great rectangle on the west will be the Palace of Fine Arts, a classic and beautiful structure embodying the spirit of Italian Renaissance and facing upon a great pool from which its outlines will be reflected.

The following are the approximate dimensions of the buildings: Machi-

ery Hall, 367.8x967.8, and annexes; Mines and Metallurgy, 574x451; Varied Industries, 414x346, and annexes; Manufactures, 552x470; Transportation, 614.6x574.6; Liberal Arts, 555x470; Agriculture, large wing, 630.6x574.6, smaller wing, 423.9x579.6; Education, 394.3x526; Automobile Hall, 272x752; Festival Hall, 380x200 (greatest 280); Horticulture, 630x295; Fine Arts (outside line), 1,100 feet.

Magnificent Illuminations.

Throughout the entire exposition the illumination will be such as to bring out the colors of the courts in their proper tones, to sharpen and intensify the color effects. The illumination of the colonnades will be accomplished through purple lights; the windows of the exposition palaces will diffuse a golden ray. Giant batteries of colored searchlights will be anchored in the harbor before the site and will play against huge jets of steam and smoke that will be liberated high in the heavens. Searchlights 500 or 600 yards out in the water and before the main axis of the exposition will direct batteries of light over the more than three hundred evolutions in color.

Of the three main groups the one on the east will be comprised in the concessions or amusement center, which will occupy sixty-five acres, and will be the first of all parts of the exposition to be reached by those who come from the downtown portion of San Francisco. Its entrance will be by way of a great plaza at which the concessions district will open out upon Van Ness avenue. Through the concessions area will run a broad avenue which will mark an irregular course east and west, but will describe many right angles. At each turn as you pass along the street of concessions you will find some imposing concessions structure. Every corner will be marked by a great building. The street of concessions will be more than a mile in length. The domes of the buildings will be illuminated at night and startling electrical effects will contribute to the night life of the exposition at the amusement center.

The western group will include the area occupied by the pavilions of the foreign nations, by the building to be erected by the United States government and by the states' buildings. The pavilions of the foreign nations, furthest from the bay, will rise tier upon tier in terraces as they advance up the gradual slope of the Presidio military reservation. Nearer at hand and closer to the water will be the buildings of the various states. Each structure in this part of the exposition grounds will be surrounded by ample lawns adorned with shrubs and flowers. In its entirety the western wing will present upon a magnified scale the effect of a superb residence district.

Great Drill Grounds.

Still further to the west of the states and foreign district will be a great drill grounds, capable of accommodating at one time ten thousand troops in drill. Foreign nations will send their crack cavalry and infantry to participate in the maneuvers and trials of skill.

Encircling the drill grounds will be a race track where international speed and harness races will be held. One racing association alone has guaranteed a purse of \$25,000 for a two-year-old trotting race.

Marking the extreme western limit of the exposition structures will be the stock pavilions and the buildings devoted to live stock, poultry, domestic pets and other displays. The government life saving service display will also be located here.

Applications for exhibit space have been received from all parts of the world. More than eight hundred leading exhibitors have applied for extensive space in the great exhibit halls and many of the exhibits range in value from \$200,000 to \$500,000. The number of applications for concessions is unprecedented at so advanced a pre-exposition period. Director of Concessions Burt has received more than two thousand applications for concessions, many of which will be exceedingly original and striking. Appropriately enough, among the concessions will be a \$250,000 replica of the Panama canal. It will take twenty minutes to make the trip. Another will depict the roaring days of forty-nine; the visitor in 1915 will be taken by the ferry building by a stage coach typical of the gold days. The Santa Fe will expend \$250,000 on a panorama of the Grand Canyon.

RIGHT HERE IS YOUR CHANCE To Buy That Typewriter!

This is Straight-from-the-Shoulder Typewriter Talk
by a Typewriter Man to the Readers of The Mountain Advocate

No other typewriter built—regardless of any claims made—is the equal of the new Fox Visible Typewriter either in material used, or in workmanship, or in the number and convenience of its special features. There are many good typewriters being built and sold, but we claim for the New Fox Visible Typewriter that it is better than the best of these, and that its automatic features combined cannot be found in any other typewriter. The New Fox is a typewriter that will meet with the approval of the most critical user. A single demonstration will convince you—we will make it at our expense, if you will permit us.

Whether you have had the use of a typewriter or not, you have paid for one many times over! Yes, sir, we mean it; every day you continue using the old, slow method of writing with a pen you are unconsciously paying for a typewriter. The farmer who cuts his grain with a scythe pays with every drop of sweat for a reaper. If you are neglectful of your wearing apparel and expose yourself unnecessarily to the rain and cold you are paying for the very things that would have kept you well and comfortable. Remember this and mark it well: You must Pay—Pay—Pay—for the necessities of this life, whether you use them or not.

THIS IS THE NEW VISIBLE FOX

"BETTER THAN THE BEST OF ALL OTHERS"

SENT ON FREE TRIAL, Express Prepaid

Look at the illustration of our New Fox Visible Typewriter, shown above, and compare it with any other typewriter you have ever seen or used. Here is a really VISIBLE typewriter—note that the printing plate is on top in plain sight, and that the type bars rise from where they are laying and strike the platen in full view of the operator, and in direct line of vision, and that all of what you have written remains in full sight until the paper is removed from the typewriter. Compare this with those old style typewriters, that some firms are still advertising as visibles, but on which the printing point is beneath the typebars, and you have to look down into them—or between them—to see what you have written. Touch a key on the keyboard and you change the color of your writing instantly from black, blue, or purple to red. Press the Tabulator Key at the left (in front) for paragraphing, writing the complimentary closing, etc.; also for all kinds of billing. At the right (in front) is our Back Space Key. This moves the carriage backward for making corrections, or putting in punctuation. This key also enables the operator to erase a word of three letters and write one of four in its place. Press the Stencil Key shown at the left (front) for making stencils from which thousands of duplicate letters can be made. Four rows of keys reduce the shifting one-third. The right Shift Key locks automatically for writing in all caps. A positive automatic Line Lock prevents you from writing beyond a predetermined line. The ribbon travels in a "zig-zag" line—not straight across from spool to spool as on others—thus using all the ribbon and making it last three or four times as long as on other typewriters. The ribbon automatically re-winds itself from one spool to the other without any attention from the operator. Carriages are interchangeable, and run on ball bearing tracks. Platens are removable, so that both a hard and soft platen can be used on the same typewriter. Extremely light touch. "No falling leaf is lighter than the touch of the Fox Typewriter." Choice of Elite, Pica, Condensed Roman, Medium Roman, or Italic Type—we carry more than three thousand special type in stock, of our own manufacture, and can furnish key boards for any language. The Fox has an easy, almost noiseless action, is very durable, and is sent complete with cleaning outfit and metal cover with hard wood base. This is the Fox, the typewriter we manufacture—this is the typewriter that we will send to anyone anywhere in the United States on Free Trial, all express charges fully paid—no "red tape"—no delay—no obligation to buy. If purchased after trial you can pay a little down—whatever you can spare—and the balance in small monthly payments.

Reader, in all sincerity we can honestly say this proposition has never been equaled by any other typewriter company, and all we ask is that you write us TO-DAY—NOW—giving us your name and address so we can send you our catalog and write you personally about your typewriter and Free Trial offer.

A FRIEND IN NEED, my neighbor said to me, "A friend in need is what I mean to be; in time of trouble I will come to you. And in the hour of need you'll find me true."

WHAT TO EAT.

Let us see what we can do with these inexpensive dishes to make an attractive meal. We are paying now for the cheapest cuts of meat what we paid a few years ago for the best, and it behooves us to use wisdom in buying any of the high-priced cuts.

Savory Stew.—Pieces of tough and otherwise impossible meat may be made tender and tasty by long, slow cooking. The stone dish or casserole has made a great difference in our meat bills where it is commonly in use.

Cut a round steak into cubes and roll each cube in seasoned flour. Put into a frying pan a little fat and fry a minced onion until a light yellow. Lay in the meat, fry for five minutes, cover with cold water and simmer on the back of the range for two hours. Season with salt and pepper, add a half teaspoonful of Worcestershire sauce and a tablespoonful of catsup. Serve hot with boiled rice or mashed potato.

Bread and Cheese.—This bread and cheese will be followed by kisses if the recipe is carefully followed. Grease a pudding dish and put into it a layer of slices of stale bread; on each slice place a thin slice of American cheese. Beat one egg very light, stir it into a pint of milk, salt slightly and pour the milk over the bread and cheese. Set into the oven until browned lightly, and serve with a dash of cayenne. Serve hot. This is a nice dish for supper.

Coffee tapioca pudding is a simple dessert. Pour over a cup of softed tapioca a pint of left-over coffee. Cook until clear and serve hot with sugar and cream.

Backache

Miss Myrtle Cothrum, of Russellville, Ala., says: "For nearly a year, I suffered with terrible backache, pains in my limbs, and my head ached nearly all the time. Our family doctor treated me, but only gave me temporary relief. I was certainly in bad health. My school teacher advised me to
